

# Technology Requests

## BANGLADESH

### Lamp manufacturing machine

A Dhaka-based electricals and electronics company is searching for manufacturing machinery and/or complete assembly line with sustained inputs of raw material for the production of electrical lamps.

#### Areas of application

Electrical industry

#### Transfer terms

Equipment supply; Turnkey.

#### Contact details

Mr. Ahmed Pasha, Dhaka, Bangladesh. Fax: +88 (2) 883 4410; Mobile: +8801713047284; E-mail: pasha.ahmed@gmail.com.

## FIJI

### Kite grading

A Fiji-based firm is interested in the technology of kite grading, a subservient of genetic therapy research, particularly for the cardiovascular applications.

#### Areas of application

Medical sciences

#### Transfer terms

Consultancy; Equipment supply.

#### Contact details

Mr. Vakatora, Suva, Fiji. Tel: +679 652358; E-mail: lenaitasi.vakatora@fdb.com.fj.

## INDIA

### Tocopherol production

An Indian firm specialized in manufacturing and export of agro-based products intends to establish a tocopherol extraction plant. It is in need of technical assistance for this project.

#### Areas of application

Chemicals; Food supplement; Pharmaceuticals.

#### Transfer terms

Consultancy; Turnkey.

#### Contact details

VEG Trading Company, 106/12, Prakasam Street, Erode, Tamil Nadu 638 001, India. Tel: +91 (424) 222 3846; Fax: +91 (424) 221 8041; E-mail: ramesh@tasteefoods.com.

### Patented intra-ocular lens (IOL) design and polishing

An Indian firm is looking for technology or knowledge base that will help design and develop state-of-the-art intra-

ocular lens (IOL) for implant. It wants to develop IOLs that are more affordable but superior in design and quality. The company is also looking for technology for polishing the hydrophilic and hydrophobic lenses developed using new technology.

#### Areas of application

Production of hydrophilic and hydrophobic intra-ocular lens for implant.

#### Transfer terms

Consultancy

#### Contact details

Mr. N.V. Harikumar, 3-1/4-1, Dakkini Street, Vizianagaram, Andhra Pradesh 535 001, India. Mobile: +919849838990; E-mail: nvharikumar@hotmail.com.

## SRI LANKA

### Use of natural materials for devulcanizing in reclaimed rubber production

During rubber recycling process, several synthetic materials are used in devulcanizing. A Sri Lankan government agency is interested in using natural materials as devulcanizing agents, to lower the cost of production as well as to not harm the environment.

#### Areas of application

Recycling of tyre waste

#### Transfer terms

Consultancy

#### Contact details

Rubber Research Institute of Sri Lanka, Telewala Road, Ratmalana, Sri Lanka. Tel: +94 (1) 1263 5851; Fax: +94 (1) 1260 5171; E-mail: dilharae@yahoo.com.

## TURKEY

### Production of ethanol from molasses

A Turkish company, which has a biodiesel production plant, is planning to set up a plant for producing ethanol from molasses.

#### Areas of application

Chemicals industry

#### Transfer terms

Joint venture
